

EstateWall®

Bold, robust and secure, make a statement with EstateWall.

 **MODULAR WALLS®**

About EstateWall®

EstateWall® is our robust masonry-alternative modular wall that leaves a lasting impression. Showcasing our largest posts, EstateWall is designed for those who are looking to create a grand front wall, security wall or premium boundary wall.

EstateWall® has proven acoustic properties, incorporating AcoustiMax 75® wall panels for privacy, peace and quiet. Our proprietary EstateWall® post has a robust design, making it suitable for a tall fence and front feature fence. It offers endless design possibilities with the incorporation of lights, gates and slat infills.

Features:

- Proven acoustic performance
- Affordable masonry-alternate solution
- Light-weight modular construction for quick installation
- Customisable
- A fence with retaining capacity

Applications:

- Front walls
- Entrance walls
- Premium boundary walls
- Feature walls
- Acoustic fence

Flush post and panel capping External post and flush panel capping External post and panel capping Flush post and external panel capping

Panel Joining Options:

Standard Joint Express Joint

Ancillary Options:

Wall Finishing

The system will accept any self-priming acrylic paint. Each neighbour can finish their side to reflect their individual style and colour theme.

Tiling & Stone Cladding

Tiling your wall or just a particular section can add an excellent feature or statement to your ModularWalls.

Slats & Infills

Add a designer edge to any wall, with varying height slat or infill options.

Lighting

The wall panels have internal recesses to accept concealed cables for lighting or intercom style requirements.

Letterboxes

Incorporate most styles of letterboxes or utilise our own Stainless Steel faced modular box.

Gates

The system will accept any self-priming acrylic paint. Each neighbour can finish their side to reflect their individual style and colour theme.
